

What has been happening in YOUR area

In the Dane Valley area, lots of work has been taking place to establish a partnership. Made up of individuals living and working in the area, this enables us to identify area priorities impacting on the health and well being of our community

Dane Valley priorities have been identified as:-

- Social Isolation
- Young peoples
 - Mental Wellbeing
 - Sexual health
 - Activities
- Self Care:Self Aware
- Transport – looking at local solutions and resources
- Carers support

The Connected Communities Centres will be:-

- Holmes Chapel Community Centre
- Holmes Chapel Library
- Goostrey Village Hall

The door is always open to join us or share your views about service need in the area and any new priorities that may emerge. We are more than happy to welcome new people to come on board, either on the partnership or by supporting one of the priorities. So if you live or work in the area and have an interest and passion for your community or if you have expertise in any of our current priorities – please get in touch:-

email julie.walker@cheshireeast.gov.uk or call 07929 056745
